Can Calopa is more than a traditional country house, more than a wine bar. Above all, it is a transformative experience—an inclusive initiative driving a social agriculture project to restore the vineyards of Collserola, while promoting responsible consumption, gastronomic culture, and a social and solidarity-based economy. Our menu reflects these same values: a selection of high-quality, locally sourced tapas that embraces the principles of slow food, inviting you to enjoy a complete experience in an exceptional setting.
